Dental Board Ahpra

Application to change or add division of registration

Profession: **Dental**

Part 7 Division 6 of the Health Practitioner Regulation National Law (the National Law)

This form is for dental practitioners who currently hold general registration under section 52 of the National Law and who wish to apply to **change the division(s) in which they are registered**. For example, a registered practitioner may wish to:

- add a division, e.g. if you are registered as a dental hygienist and now wish to be registered and practise as both a dental hygienist and a dental therapist,
- remove a division, e.g. if you are registered as both a dental hygienist and dental therapist and now wish to only practise only as a dental therapist, and/or
- change between divisions, e.g. if you are trained and registered as a dental hygienist and dental therapist and now wish to register as an oral health therapist.

For all divisions in which you wish to be registered you will need to:

- have an approved qualification which leads to general registration in those divisions (see **www.dentalboard.gov.au** for the *Approved programs of study*), and
- comply with recency of practice requirements of the Dental Board of Australia (the Board) for all those divisions (see **www.dentalboard.gov.au** for the *Recency of practice registration standard*). Recent graduates who apply for registration within the first year of graduation will not need to meet the recency of practice requirements.

It is important that you refer to the Board's registration standards when completing the form. Registration standards, codes and guidelines can be found at **www.dentalboard.gov.au**

This application will not be considered unless it is complete and all supporting documentation has been provided. Supporting documentation **must** be certified in accordance with the Australian Health Practitioner Regulation Agency (Ahpra) guidelines. For more information, see *Certifying documents* in the *Information and definitions* section of this form.

Exposure prone procedures (EPPs) are procedures where there is a risk of injury to the healthcare worker resulting in exposure of the patient's open tissues to the blood of the healthcare worker. These procedures include those where the healthcare worker's hands (whether gloved or not) may be in contact with sharp instruments, needle tips or sharp tissues (spicules of bone or teeth) inside a patient's open body cavity, wound or confined anatomical space where the hands or fingertips may not be completely visible at all times.

The CDNA has developed guidance on exposure-prone procedures in *Guidance on classification of exposure prone and non-exposure prone procedures in Australia 2017* available online at **https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en**

Most dental practitioners working in clinical practice will perform EPPs.

You can seek additional information about whether you perform exposure-prone procedures from your relevant organisation in Appendix 2 of the *CDNA National Guidelines – Healthcare Workers Living with Blood Borne Viruses / Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses* available online at **https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en.**

AUSTRALIAN NATIONAL GUIDELINES FOR THE MANAGEMENT OF HEALTHCARE WORKERS LIVING WITH BLOOD BORNE VIRUSES AND HEALTHCARE WORKERS WHO PERFORM EXPOSURE PRONE PROCEDURES AT RISK OF EXPOSURE TO BLOOD BORNE VIRUSES

The Communicable Diseases Network Australia (CDNA) has published these guidelines. The following is a summary of the requirements in the CDNA guidelines:

Healthcare workers who perform exposure prone procedures (EPPs) must take reasonable steps to know their blood-borne virus (BBV) status and should be tested for BBVs at least once every three years. They are also expected to:

- have appropriate and timely testing and follow up care after a potential occupational exposure associated with a risk of BBV acquisition
- have appropriate testing and follow up care after potential non-occupational exposure, with testing frequency related to risk factors for virus acquisition
- cease performing all EPPs if diagnosed with a BBV until the criteria in the guidelines are met, and
- confirm that they comply with these guidelines when applying for renewal of registration if requested by their board.

Practitioners who are living with a blood-borne virus and who perform exposure-prone procedures have additional requirements. They are expected to:

- be under the ongoing care of a treating doctor with relevant expertise
- comply with prescribed treatment
- have ongoing viral load monitoring at the appointed times
- not perform EPPs if particular viral load or viral clearance criteria are not met (see detailed information in the guidelines according to the specific BBV)
- seek advice regarding any change in health condition that may affect their fitness to practise or impair their health
- release monitoring information to the treating doctor
- if required, release de-identified information to the relevant area of the jurisdictional health department/Expert Advisory Committee, and
- if required, release health monitoring information to a designated person in their workplace in the event of a potential exposure incident to assess the requirement for further public health action.

Additional information can be found in the CDNA *Australian National Guidelines for the Management of Healthcare Workers Living with Blood Borne Viruses and Healthcare Workers Who Perform Exposure Prone Procedures at Risk of Exposure to Blood Borne Viruses* available online at **https://www.health.gov.au/resources/collections/cdna-national-guidelines-for-healthcare-workers-on-managing-bloodborne-viruses?language=en**

It also includes using professional knowledge (working) in a direct non-clinical relationship with clients, working in management, administration, education, research, advisory, regulatory or policy development roles and any other roles that impact on safe, effective delivery of services in the profession.

PROFESSIONAL INDEMNITY INSURANCE (PII)

You cannot practise as a dental practitioner in Australia unless you are covered by your own, or third-party professional indemnity insurance (PII) arrangements that meet the requirements of the Board's registration standard.

Remember, practising means using your skills and knowledge as a health practitioner in any paid or unpaid role in your profession.

If in the previous five years you have not practised in the division(s) in which you are applying for registration, you will need to satisfy the Board's recency of practice requirements. For more information, view the full registration standard online at **www.dentalboard.gov.au/Registration-Standards** and see the Recency of Practice and Return to Practice page on the Board's website at **www.dentalboard.gov.au/Registration**
