**Subject:** Scope of Practice Consultation

Dear Dental Board

I have noted a proposed change to allow dental auxiliaries to practice independently. Please note my extreme displeasure about this. Many ,many patients have presented to my surgery over the last 35 years wanting "just a clean" and only when that clean was provided in conjunction with a "proper" dental examination were other, sometimes serious health issues discovered. This will not happen with the proposed plan, putting many at risk

Regards

Richard Mumford BDS
