Subject: Changes to scope of practice for dental therapists/prosthetists
Date: Tuesday, 18 June 2013 1:14:11 PM
Attachments: [REDACTED]

Dear Sir/Madam

I write in response to the proposed changes to dental therapist scope of practice. I do NOT support these changes due to the therapist being highly under qualified to carry out such practice. Every proposed change I object to including those with prosthesis - sleep apnea devices have the capacity to damage ones bite and should only be issued by those who understand these principles.

Kind regards,

Dr David Madsen
