

FOURTH MEETING OF THE DENTAL BOARD OF AUSTRALIA 18 DECEMBER 2009

The fourth meeting of the Dental Board of Australia was held on 18 December 2009 at the Hilton Melbourne Airport. The Board is established under the *Health Practitioner Regulation (Administrative Arrangements) National Law Act 2008*.

The Board noted progress with implementation of the new national scheme. The Board is making good progress against its work plan.

As in previous meetings, in its fourth meeting the Board continued work to prepare for the scheme's commencement on 1 July 2010. Work on the Board's budget for 2010 – 2011 is progressing. The budget will be finalised after the registration migration process that will confirm final registrant numbers, and due diligence processes that will confirm reserves to be transferred from existing State and Territory boards.

The Board was pleased to receive more than 60 submissions on its consultation paper, and thanks stakeholders for their interest and valuable contributions. The submissions are available on the Board's website (except for confidential submissions).

The Board reviewed this feedback at the meeting and finalised its proposals for Ministerial Council taking the submissions into account. The final proposals will be on the Board's website by 24 December 2009. Ministerial Council is expected to consider the proposals in early 2010, to enable the Board's standards and other requirements to be available well before commencement day on 1 July 2010.

The Board considered draft guidelines on mandatory notifications, which explain the requirements under the national law for health practitioners, employers and education providers to make compulsory notifications about health practitioners in certain circumstances. The Board also considered draft guidelines on the advertising of practitioner services and a draft code of conduct for the profession. The Board agreed to a process to further develop this work over January and February 2010, with a view to releasing draft guidelines and a draft code for public consultation on 5 March 2010.

The Board considered student registration, and agreed that the Board will register students by obtaining details from education providers rather than requiring students to go through a full individual application process. The Board decided that it will require students to be registered before their clinical training commences.

The Board once again acknowledged the continuing efforts of existing State and Territory boards in preparing for implementation of the National Scheme, as well as accrediting bodies, AHPRA and the National Registration and Accreditation Implementation Project team. The Board looks forward to continued joint effort in coming months. The Board recognized the particular

contribution of Dr Louise Morauta and thanked her for her exceptional work in leading this project.

Dr John Lockwood
Chair, Dental Board of Australia
20 December 2009
