Assessment panels

The Board seeks to establish a list of approved members for assessment panels to assist the Board in assessing qualifications for specialist registration from overseas trained dental specialists. More information about specialist registration can be found on the [Board website](#).

The Board is currently working towards a revised assessment process. Under the National Registration and Accreditation Scheme (the National Scheme), the Australian Dental Council (ADC) has assessed overseas specialist qualifications for substantial equivalence to an Australian specialist program, on behalf of the Board. From **1 July 2016** we will use a new process to carry out these assessments. Assessment panels will be convened to consider these qualifications as needed and will provide advice and recommendations to the Board so that it can decide on applications for registration from overseas trained dental specialists.

Membership

The Board will select persons from the list of approved members to form an assessment panel, according to the specialty in the application. In determining the membership of a particular assessment panel, the Board will select a composition of members whose combined experience and attributes, in the Board's view, are best suited for achieving the objectives of the assessment panel.

The Board will appoint a Chair to be consistent across all assessment panels.

Commitment

Assessment panels will convene via teleconference as needed, depending on the volume and type of applications received by AHPRA, and may consider multiple applications in one session.

As applications for some specialities may be received infrequently, it is possible members may not be called upon during their term of appointment.

Selection criteria

In selecting candidates for appointment to the list of approved members for assessment panels, the following selection criteria will be taken into account:
