To whom it may concern

I am writing to express my disgust at the proposed changes that will allow OHT to practice independently. This will endanger patients as they are misled into believing that the standard of treatment provided by an OHT is on par with someone who has a dental degree. This proposed changes will also remove accountability allowing corporates to leave practices operating with an OHT and to open new 'clinics' to simply undercut prices on nearby dentists. It is going to create a race to the bottom in terms of standard of treatment and leave Australia going down the British NHS path where dentists are doing rubbish work because they need to complete treatment within idiotic time frames to ensure a profit is made.

Please do not afford Oht's any further independence. They are already given too much power.

Kind regards  
Troy Movsessian
